Direct Access & Referrals

As of October 1, 2006, Connecticut now has direct access to Physical Therapy.* This means that you may receive physical therapy services from a qualified Physical Therapist without a prescription from your doctor, as long as you demonstrate objective, measurable, functional progress within a designated time period.

*Workers' Compensation requires both a doctor's prescription and preauthorization.

*Medicare requires a doctor's prescription.

***Your insurance company may still have specific referral guidelines to follow to obtain reimbursement.**

If you are referred by a physician, our policy is to provide the physician with written notification, progress reports, and functional status reports at a minimum of once every 30 days.

Scheduling

We suggest scheduling your appointments in advance in order to meet your needs.

Periodically, scheduling appointments may be difficult because of the demand, but we will do our best to meet your needs. We usually maintain a waiting list for appointment requests, and will contact you if your desired appointment becomes available.

With this in mind, please realize that it is important that you notify us at least 24 hours prior to your scheduled visit if you are unable to keep your appointment. Otherwise, we do not have the opportunity to offer that appointment time to someone else in need of services.

We look forward to meeting you and helping you reach your rehabilitation goals!
